About SingleThread:
Telling The Story of Today

Since 2016, Chef Kyle, Katina, and the SingleThread team have cultivated a unique culinary ecosystem in Sonoma County, California, rooted in local land stewardship, sustainable food practices, and exceptional hospitality.

SingleThread is dedicated to crafting singular, memorable dining experiences that reflect the present moment and foster a deep connection to the land and food systems.

By immersing guests in the rich narratives of our food's origins, artisans, and sustainability, we aim to inspire a fresh perspective on local and ethical food practices.

Property Buyout:
Make Our Home Yours for the Night

When we welcome a guest into our restaurant, we welcome them into our home. There are no barriers between the kitchen and the dining room, creating an immersive experience where you become part of the culinary story unfolding around you.

A buyout includes the use of the rooftop gardens, the dining room, our five room Inn, and is wonderful for rehearsal dinners, corporate dinners or retreats, birthday parties, or simply an array of special life moments where you want to celebrate with your closest guests at that specific moment in time.

Weather permitting, the evening would begin with a champagne reception in our rooftop gardens accompanied by passed canapés. Guests would then be welcomed down to the dining room in waves to begin the dining experience including our ten course tasting menu and our wine pairings.

A midweek buyout starts at $65K, and increases to $85K during peak season.

Property Buyout: SingleThread Inn

As as extension of our hospitality and tucked away on the second floor of the restaurant, our inn has five thoughtfully appointed guest rooms, including a 700 square foot suite. Each room is designed and crafted to create a timeless, luxurious, and contemporary atmosphere. All of our rooms host an assortment of curated amenities to make each moment of your stay memorable and unique.

This is a required piece to a property buyout as all of our guests are guaranteed a reservation at our restaurant. Our Inn guests receive the unique experience of enjoying a complimentary Japanese or Sonoma breakfast, and access to our concierge team who can provide personalized itineraries so you may enjoy Sonoma County and all it has to offer.

Workshops

SingleThread Workshop Series enables us to share the talents and craftsmanship of our team and artisans with our community.

Built on the cornerstones of Farming and Floristry, workshops can be added on to any event itinerary. Each workshop, like our menu, will be catered to the season in which it takes place – offering guests an opportunity to immerse themselves in discussions and hands-on experiences that are truly a reflection of the season.

Offsite Events:
Bring SingleThread to You

Embracing the art of crafting unforgettable experiences, SingleThread extends its enchantment beyond our doors, curating breathtaking offsite events in remarkable settings—from secluded coastal retreats and alpine sanctuaries to historic estates, exclusive vineyard properties, and other distinctive venues that capture your vision. With the same dedication to excellence that defines our restaurant, our team curates each offsite event to perfection, seamlessly blending the beauty of the chosen location with the culinary wonders that SingleThread is renowned for.

When you host an event with SingleThread, you're collaborating with a culinary partner to craft an experience, never to be replicated. The floral components on the table foraged from the wilds will not be the same tomorrow. The menu and its design has been chosen for that evening in the ultimate seasonality. The guests coming together and the sequencing of the evening is a thoughtful fleeting moment.

Activations

From immersive pop-ups to cinematic dining experiences and collaborative chef events, SingleThread's activations are thoughtfully crafted to go beyond traditional dining. Each is rooted in seasonality, storytelling, and a strong sense of place, offering guests meaningful ways to engage with our philosophy in new and unexpected ways while creating distinctive opportunities for memorable private events, brand partnerships, and elevated guest experiences.

THROUGHLINE
A CINEMATIC DINING EXPERIENCE

ThroughLine offers a narrative where every dish tells a story and invites guests to journey deeper into their dining experience by pairing a 12-course Omakase-inspired tasting menu with an eight-part film series directed by Emmy-nominated Justin Taylor Smith. Designed to entertain, educate, and create a strong connection to the nuanced stories behind the dishes, the films will spark conversation and curiosity that guests will explore with our chefs throughout the evening.

USU-ZAN

In the midst of the pandemic as guests' hopes and desires turned back to the restaurant experience, SingleThread pivoted and built a transformative moment by crafting a homage to Hokkaido, Japan. Complete with an immersive forest like setting and centered around a thoughtful and nourishing hot pot menu, guests came with their loved ones for a safe and joyful dining experience.

CHEF COLLABORATIONS

Since its inception, SingleThread has opened its doors to some of the greatest Chefs in the world to work in concert with the SingleThread team to curate one of a kind experiences for our guests. A unique opportunity to bring culinary icons at the top of their game to Sonoma County and find inspiration in our agricultural community and partner with the SingleThread kitchen to create pure magic is an absolute gift.
